Address: Eskişehir / TURKEY

### WORK EXPERIENCE

#### Test Engineering Associate

Accenture | January 2021 - Continue

- I am working as a both manual and automation test engineer. I mostly do manual testing on the frontend/mobile side of apps.
- I have used Jira, Azure DevOps, Java, Selenium and Python technologies for all testing activities until now.

#### ALM & DevOps Intern

OBSS | August 2020 - September 2020

- I have gained experience in making service desk project by using Jira Service Desk and Confluence on VM.

#### Customer Services Representative

Erişim Customer Services | Jan. 2018 - May 2019

- I have been working as a part-time customer services representative at a private bank that is one of the biggest banks in Turkey.

### EDUCATION

#### Eskişehir Technical University

August 2015 - September 2020

Computer Engineering - 3.37/4.0

### GRADUATION PROJECT

#### EducateUS - Lifelong Learning Platform

We have developed a website that contains variety of educative videos. Those videos are fetched from YouTube with Selenium and categorized by using NLP techniques. I have been responsible for NLP part of project.
